INFORMATION FOR CONTRIBUTORS

The ISRAEL JOURNAL OF MATHEMATICS publishes short and medium length research papers in mathematics.

Manuscripts should be typewritten, triple spaced, and conform to accepted standards for mathematical papers. A short abstract should be included.

It would be most helpful if authors provided a list of all the special characters required in their papers, whether they be accented characters, Greek, Fraktur or unusual signs.

Authors should keep a complete copy of the manuscript. Authors making extensive revision in proofs will be required to bear the costs thereof. Fifty reprints are provided free of charge; additional reprints may be ordered along with proofs.

Two copies of each manuscript should be sent to

The Editor
Israel Journal of Mathematics
Department of Mathematics
The Hebrew University of Jerusalem
Jerusalem, Israel

Manuscripts will be discarded one month after publication unless the editor is requested to return original material to the author.
